

After an amazing first two race nights at ACMS, we are pleased to welcome back our Super Trucks for their first race of the season, along with the Pro Trucks and Mini Stocks. With a few laps under his belt, we would like to introduce you to Ian McLean, a new driver to ACMS, and give you a little insight about his experience racing here in Saskatoon.

Q. When did you start racing competitively?

A. Last week! But I've gotten to drive a few fast toys. I drove a pro truck at a race experience in '97, before they even ran at ACMS. I've tried a street stock, drove a cup car at Vegas and spent a weekend learning to race motorcycles.

Q. What drives you to compete in the Pro Truck division?

A. Right now it's just the desire to be able to run in the pack and learn how to setup a truck, but I think everyone has that itch. As soon as you're behind the wheel, you just want to get ahead of whoever is in front of you.

Q. Tell me some of the highs and lows of your career, or your first time at ACMS.

A. The high was my first qualifying run, the low was blowing my motor in the heat race.

Q. What are your goals for the 2014 season?

A. After seeing how good the rest of the guys are, I'd probably be happy if I can stick and mix it up with the pack and earn the respect of the other drivers, but it sure would be cool to contend for a win!

Q. What do you enjoy most about your first time here at ACMS?

A. Constantly improving in the truck, and the camaraderie between the other drivers.

Q. What's your favorite tool in your tool box and how does it work to help you at the track?

A. Tire pressure gauge, pyrometer and stagger gauge because they tell you a ton about how the truck is working. And if that fails I have a big hammer to hit things with.

Enter to win **4 Flex Tickets!**

This is a weekly draw. Drop off your entry at the 50/50 booth.
